

La Vieille Maison d'Art  
WEDDINGS - 2018

# We host your dreams

**La Vieille Maison offers truly unique settings for weddings and family events.** We work with you so as to help you to create whatever you dream is for your wedding. We understand that the choice of venue is an important life decision, and we listen to you, so as to provide all that you need.

# THE HOUSE

The centre of the house dates from the Fifteenth Century. The modern facade of the house was created in 1763.

We have a formal dining room that can seat up to **sixty people**. The room has chandeliers from Murano, and plasterwork from the Eighteenth Century. We offer a service to decorate the tables with candles and flowers, to create a beautiful, and personally defined setting for your wedding

The house has three courtyards. The main courtyard in front of the house, a side courtyard that is accessed from the dining room, and the swimming pool courtyard. These outside spaces, and also the facade of the house, can be decorated so as to create themed external areas.

## FULL CONCIERGE & CATERING SOLUTION

From the moment that you and your guests arrive in France, through to the moment that you leave for your honeymoon, we look after you.

On the day of your wedding, we ensure that everything is perfect.

We start with initial meetings to map out your wishes for the visit and the marriage, and work to realise those wishes.
